

MARK MUTAI

Frontend Software Developer

Nairobi, Kenya | 0791632555 | mutaimark5@gmail.com | github.com/MarkMutai5

PROFESSIONAL SUMMARY

Frontend developer specializing in responsive, production-grade web interfaces for business-critical applications. Builds and ships interfaces that integrate cleanly with backend REST APIs, holds code to a defined quality bar through consistent review, and owns deployment end-to-end using Docker and GitHub Actions across UAT and production. Delivers software SMEs and finance teams rely on daily — inventory, invoicing, and compliance systems used in live production environments.

PROFESSIONAL EXPERIENCE

Front End Developer, TenziLabs Nairobi, Kenya | 01/2023 – Present

- Design and build responsive, user-facing interfaces for production web applications.
- Integrate frontend interfaces with backend REST APIs in direct collaboration with backend engineering.
- Enforce coding standards through structured code review, raising and maintaining software quality.
- Own DevOps delivery: deploy applications to UAT and production using GitHub Actions and Docker.
- Test, debug, and optimize applications to strengthen functionality and performance.
- Evaluate emerging tools and technologies to improve team development practices.

PROJECTS

TenziBiz

Business management platform for SMEs, covering inventory, sales, invoicing, multi-business, and user management.

- Translated UI/UX designs into responsive, production-ready interfaces.
- Tested and debugged core workflows to ensure reliable functionality and performance.

Dynamic Etims

Invoicing platform connecting QuickBooks accounts to generate KRA-compliant invoices.

- Built responsive interfaces directly from design specifications.
- Integrated KRA-compliant API endpoints to enable accurate, automated invoicing.

Reverse Invoicing

Platform enabling companies to raise invoices on behalf of their suppliers.

- Developed interactive, user-focused interfaces for the invoicing workflow.
- Integrated KRA-compliant API endpoints to support accurate reverse invoicing.

EDUCATION

BSc. Software Development — KCA University, Nairobi, Kenya

05/2019 – 12/2023

TECHNICAL SKILLS

JavaScript • TypeScript • Git • GitHub • CI/CD • DevOps • Docker • UI/UX
